No prior Experience

PROJECTS

NEXUS: Alumni Connection Platform

NEXUS is a comprehensive platform, encompassing both a mobile application and a website, designed to foster meaningful connections between alumni and current students of the college. It offers a wide range of features, including Alumni Registration, a Donation Portal, a Networking Hub, a Job Portal, and Alumni Directory, Success Story Tracking, Events and Reunions, and Feedback and Surveys.

Technologies Used:

- Website: HTML, CSS, JavaScript, MySQL, Node.js
- Mobile Application: Flutter, Dart, UI/UX

Work Haven – In Progress

Work Haven is an innovative digital platform designed to foster a balanced and engaging environment for individuals seeking to boost their productivity and well-being, whether students, professionals, or creatives. The platform enables real-time interactions with friends or colleagues, customizable backgrounds for a personalized workspace, soothing music to enhance focus, and the option to display motivational quotes.

Technologies Used:

- Frontend: HTML, CSS, JavaScript
- Backend: MongoDB, Node.js
